Step 1 — Battery

- This guide is to replace a battery for an LG Optimus V.

Step 2

- Turn over the LG Optimus V so that the screen is facing downward.

Step 3

- Locate the crease right above the camera.
- Use your plastic opening tool to detach the back cover.

Step 4

- The battery will be the grey rectangular object sitting in the center of the backside. Take out the battery with your hand. Now replace it with your new battery. Afterwards, reinsert the back cover and you will be good to go.

To reassemble your device, follow these instructions in reverse order.
